

# ROHIT KUMAR

Full-Stack Developer | AI-Integrated Web Applications

+91 87890 24145 | rohitkumarrx@gmail.com | [linkedin.com/in/roul-max](https://www.linkedin.com/in/roul-max) | [github.com/roul-max](https://github.com/roul-max) | [roulportfolio.vercel.app](https://roulportfolio.vercel.app)

## PROFESSIONAL SUMMARY

Full-Stack Developer with a B.Tech in Computer Science (Artificial Intelligence) and hands-on experience shipping production-grade web applications across ERP, CRM, e-commerce, and AI-integrated systems. Skilled in building scalable REST APIs, secure authentication (JWT, RBAC), and relational and NoSQL data layers using Node.js, Express.js, MongoDB, PostgreSQL, and Supabase. Proven ability to integrate third-party AI and payment infrastructure — including Google Gemini for conversational AI and Razorpay for live transaction processing — into reliable, deployed products. Comfortable owning a feature from database schema to deployed UI, with a strong focus on clean architecture, debugging, and performance optimization.

## TECHNICAL SKILLS

**Frontend:** React.js, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS

**Backend:** Node.js, Express.js, RESTful APIs, JWT Authentication, RBAC

**Databases:** MongoDB, PostgreSQL, Supabase

**Tools & Platforms:** Git, GitHub, Vercel, Render, Postman, Razorpay

## WORK EXPERIENCE

### Full-Stack Developer Intern — Croma Campus Pvt. Ltd.

May 2025 – Aug 2025

- Delivered 5 full-stack web applications using React.js, Node.js, Express.js, and MongoDB during a structured 4-month training program.
- Designed and consumed RESTful APIs with JWT-based authentication, CRUD operations, and form validation across all projects.
- Implemented role-based access control (RBAC) and protected routing for secure multi-user workflows.
- Performed API testing using Postman and optimized backend response times through query indexing.
- Debugged and resolved cross-browser and API integration issues, reducing production bugs across delivered applications.

## PROJECTS

### Impulse — E-Commerce Web Application [GitHub](#) | [Live](#)

Sep – Oct 2025

React.js · Node.js · Express.js · MongoDB · Razorpay · Tailwind CSS

- Integrated Razorpay payment gateway to handle live online transactions with order confirmation and payment status tracking.
- Built a dynamic product catalogue with cart state management using React Context, supporting add/remove/update operations.
- Optimized React Router navigation, reducing page transition latency and improving perceived performance across devices.

### ACE — Enterprise Resource Planning System [GitHub](#) | [Live](#)

Jan – Feb 2026

React.js · Node.js · Express.js · MongoDB · JWT · Tailwind CSS

- Architected a multi-module ERP platform covering inventory, finance, sales, and reporting in a single unified dashboard.
- Implemented role-based authentication with protected routes, supporting distinct admin, manager, and staff access tiers.
- Designed scalable REST APIs with a modular Express.js architecture, enabling independent module development and testing.

### GharPayy — Property Rental CRM [GitHub](#) | [Live](#)

Mar – Apr 2026

React.js · Node.js · Express.js · Supabase · Razorpay · Tailwind CSS

- Developed a full-stack CRM for property listing management, rental workflows, and tenant-owner interaction tracking.
- Built reusable, responsive React components, improving cross-device compatibility and reducing frontend code duplication.
- Integrated Supabase-backed REST APIs for dynamic property data with optimized query patterns and efficient data retrieval.

### Catherine — Personal AI Voice Assistant [GitHub](#) | [Live](#)

June – July 2026

Next.js · Google Gemini · ElevenLabs · Google Cloud TTS · Web Speech API

- Built a personal AI voice assistant using Next.js and Google Gemini, enabling natural, real-time conversational voice interaction.
- Engineered a resilient multi-provider text-to-speech pipeline, migrating across ElevenLabs, Google Cloud TTS, and Gemini TTS with a Web Speech API fallback for uninterrupted reliability.
- Deployed and maintained the application live at catherine-ai.vercel.app, owning the end-to-end pipeline from voice input to AI response generation and speech output.

## EDUCATION

### B.Tech in Computer Science Engineering (Artificial Intelligence)

Sept 2022 – Sept 2026

IIMT College of Engineering, Greater Noida, UP | CGPA: 7.4 / 10

## CERTIFICATIONS

- Java Full-Stack Developer Certification — Croma Campus Pvt. Ltd. (May – Aug 2025)
- IIoT Basic Introduction using ThingWorx — Dysmech Competency Services (Dec 2024)
